Saylor Building Company

May 17, 2000

Dear Joe:

Tim and I just wanted to say thanks again for allowing us to dispose of some extra sod in Edgestone a couple of days ago. I had made several phone calls and no one would take it, so I was at a loss as to what to do with it when I called you. You helped us out a lot. I am assuming I put it in the correct spot, as I have not heard otherwise.

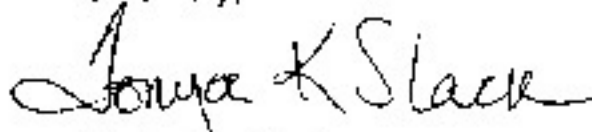

Joe, we also want to congratulate you on your being honored as the Young Builder of the Year for 1999. It is a well-deserved title. We are always proud to tell people who our builder was and never hesitate to recommend you. Among the reasons we feel this way is that throughout our building process, and even now, you were/are always available to your customers. You return our phone calls promptly and always seem to have time to talk to your homeowners. As we talk to people, we hear more and more how this his not the norm and we really appreciate the accessibility we have with you.

As for our home and Stonecrest Subdivision, we are very pleased with both. I am happy to say that we have had no problems with the house and are really enjoying it. We have found the sub to be very friendly as well. There are a lot of children for our kids to play with and we have found the neighbors to be very caring and close. We have enjoyed getting to know many of them through such activities as Euchre games, sub-wide picnics in the park, and Easter egg hunts.

In all, we feel we purchased a very well-built home, in a nice sub, at a great price. If we were ever in the market to build again, we would be happy to work with Saylor Building Company, without reservation.

Thanks again.

Sincerely,

Tonya K. Slack
