Dear Mr. Saylor:

I want to extend our appreciation to you and your company for the wonderful job you did in constructing our new home. We absolutely love it!

From the time when we first approached Saylor Building Company with a plan in hand and a dream in our head, you were friendly, helpful and ready to assist us with any questions or concerns that we had. Every worker that arrived at the house was pleasant and knowledgeable. We realize that building a custom home offsite is not always the easiest task, but you made our building experience a pleasant one.

I cannot tell you the amount of positive comments we receive on the appearance and workmanship of our new house. We would highly recommend Saylor Building Company, as you and your staff made our "dream home" a reality.

Sincerely,

Chris Carnago
